I paid eight times as much for this update of an existing book. Extravagant? Perhaps. But I got a better job and in this business the finished product is everything. You can count on Rachel, but you'll pay for this kind of excellent service.

There are inevitably unforeseen issues with any project and this one was particularly demanding at times. Rachel came through every test, however, and delivered a beautiful book. She is easy to collaborate with and very reliable and responsive when you need her input. Thank you!
